Degrees with a Year in Industry are a great way to gain experience in the workplace while you are a student, and will give you a distinct advantage in the job market when you graduate.

You will undertake a 12-month industrial placement between the second and third years of study (this can also be done between the third and fourth years of study in the case of our four-year MComp and MEng courses).

Undertaking a placement year will allow you to:

- > gain insight into a particular industry or role
- > decide if this is the right career path for you
- > take on real responsibility and increase r h n k \ h g i j ^ g \ ^
- > develop transferable skills and enhance your employability
- > network and gain valuable references and contacts

Pa ^ g r h n \ h f ^ [Z \ d m h l m n] r b g r h n k i g z e
year you can apply the skills and experience gained during your placement to your studies Z g] f Z g r l m n] ^ g m l i g] m a Z m m a ^ r
graduate position or further work experience as a result of their placements.

Support

The Faculty Employability Team are on hand m h h ^ k ` n b] Z g \ ^ m a k h n ` a h n m n application process as well as during your r ^ Z k h g i e Z \ ^ f ^ g m ' M a ^ r h ^ k l p a b \ a b g \ e n] ^ l a ^ e i b g ` r h n i g] z < O Z g] Z i i e b \ Z m b h g l ^ l l b h g l % i l ^ l l b h g l Z g] ^ o ^ g m l % l n i i h k m Z g throughout the year and support when you return from your placement.

Women in Computer Science

A great place to work and study

We are dedicated to making our department a great place for people to come to study regardless of gender. We have been awarded the prestigious Athena SWAN silver award in recognition of our continued commitment to diversity and equality.

This award confirms that diversity and equality are embedded firmly in the culture of the Department of Computer Science, making it a great place for all of us to work and study.”

Professor Guy Brown
Head of Department
